SKILLS

Backend: C#, .NET, ASP.NET MVC, ASP.NET API, Entity Framework

Frontend: HTML, CSS, JavaScript, React.js

Databases: Microsoft SQL

DevOps & Tools: IIS, Nginx, Docker, Git, GitLab, Jenkins

APIs & Integrations: Google Maps API, Mapbox, Google Cloud Vision API, Google Gemini API, OpenStreetMap, KeyCloak, Firebase

EXPERIENCE

Altacode, Yerevan, Armenia - *.NET Developer*

February 2023 - PRESENT

- Developed and maintained 5+ web applications using C# and .NET Core at Altacode.
- Built RESTful APIs with .NET Core for scalable backend services.
- Integrated Google Maps and Mapbox APIs to enhance application functionality, providing location-based services and interactive mapping.
- Implemented Keycloak for Single Sign-On (SSO), improving application security and streamlining user authentication.
- Deployed applications on IIS, Nginx, and Ubuntu servers.
- Utilized Git and GitLab for version control and team collaboration.
- Migrated two applications from .NET Framework to .NET Core, resulting in a 50% performance improvement.
- Mentored interns in .NET Core, accelerating their onboarding and contributions at Altacode.
- Optimized SQL database performance through indexing and query refactoring

EDUCATION

Self Taught Software Development

November 2021 - Present

- **Utilized resources like Pluralsight, freeCodeCamp, Udemy and Youtube to gain practical skills.**

Vocational High School in Electronics

September 2012 - July 2015
